

Collision free 5-side machining in one operation
 ...the new NC-compact vice RKE 125 LV

RKE 125 LV

Id.-No. 163392

short, compact design with stepped jaws, jaw width 125,
 clamping system mechanical/mechanical
 with power amplification and presetting.
 Total length 372 mm, clamping forces up to 40 kN. Weight 29 kg

With tension clamping, 0-point of workpiece end on operators side.
 Large clamping range, no shifting of the movable top jaw.
 Steel body and all guides hardened and ground.
 Massive chip protection.
